

NC-032, AFJROTC COURSE SYLLABUS

LEADERSHIP EDUCATION 400: PRINCIPLES OF MANAGEMENT

The textbook is a guide to understanding the fundamentals of management, managing yourself, and others. Emphasis is placed on allowing the student to see themselves as a manager. Every organization, regardless of size, faces the challenge of managing operations effectively. No matter how well a manager carries out his or her job, there are always ways of doing at least part of the task more effectively. There are four building blocks of leadership considered in this text from the military and civilian perspective. Attention to these four areas will form a strong foundation for a capability to lead others – something that can be very valuable to you for the rest of your life. The four areas are Management Techniques, Management Decisions, Management Functions, and Managing Self and Others. Monday is uniform day unless changed by the Instructor.

The Course Objectives are: Effective Aug. 2016/17

1. Comprehend the importance of management
2. Comprehend the techniques and skills involved in making management decisions.
3. Comprehend the concepts and skills of problem solving, decision-making, and negotiating.
